## Are The Entrenched DHS Power Brokers Still Obstructing Progress?

Did "Acting" City Manager  
set up a trap for Mayor Alex Bias to fall into?  
Why does the old guard continue to  
Obstruct Bias's Efforts to bring  
Health Care, Economic Development  
and other reforms to DHS?

In a channel 6 interview Mayor Alex Bias says he is being thwarted in his efforts by corrupt interests in Desert Hot Springs. Says the bad press he took over the office painting scandal - shall we call it "Paintgate"? - was just one example. "I was never told not to paint the office," said Bias in the News 6 interview. Was it a set up by his nemesis, John Soullier? And just why is the city manager politicking so hard against the Mayor.

Who elected Soullier anyhow? And while we are thinking about it, was his appointment ever formally voted on by the city council? Whatever, the Mayor's agenda has definitely been derailed. Let's see if he can revive it. What will the next initiative of the Mayor be and will it too be derailed? Stay tuned.

**Would Mayor Alex Bias's good will reforms be thwarted  
if the recall succeeded?**
