Jerry Hanson...What's Up With Desert Hot Springs?

Dear Neighbors,

Jerry Hanson thinks he is Ceasar...but acts like Nero!

Instead of being the hero of the people, leading us skillfully and speedily through the troubled waters of bankruptcy and onto the road to economic recovery and prosperity, Mr. Hanson has become the oppressor of the people. The question is...was he corrupt before he arrived or was he corrupted by power given to him by City Council? Whatever the case...it clear that Jerry Hansen needs to go...and go now!

Some people feel that Desert Hot Springs is a sinking ship...and we all know what happens when a ship sinks: the sharks start to circle. Jerry Hansen is the current skipper of the good ship DHS caught in a storm (a mess of his own creation) because he misread the charts (the peoples). He has run a ground on a coral reef (the media watch dogs) and now the sharks are circling.

To call what we have in Desert Hot Springs politics...gives politics a bad name.

**Please come to the next City Council meeting and let your feelings be heard:
August 5, 2003 @ 6:00 p.m. at the Carl May Center - West Drive and 1st
Street.**

We will not stand for corruption!

Regards from your Neighbor,

Alex W. Bias
